(54) PHYSICAL DISTRIBUTION MANAGEMENT SYSTEM AND ITS MANAGING METHOD

(57)Abstract:

PROBLEM TO BE SOLVED: To structure a logistic system which can structure a mechanism for physical distribution as if a maker and a retailer were one enterprise so as to control the successive flow from the manufacture to the sale of an article without any waste.

SOLUTION: This managing method for a physical distribution management system including a maker terminal 113, a wholesaler terminal 122, and a server 100 has a recording step 210 for recording the correspondence between articles and wholesaler terminals 122 in a file, an ordering step (S302) for ordering articles from the server 100 to the maker terminal 113, a retrieval step for retrieving the wholesaler terminal 122 corresponding to an article, and a transmission step (S308) for sending acknowledgement charge information regarding an acknowledgement charge for guaranteeing the debt of the article from the server 100 to the wholesaler terminal 122 retrieved in the retrieval step.
